Post Duration	Permanent
Level	Clinical Tutor
Reports to	Head of Discipline of Medical Education

JOB ADVERTISEMENT

Applications are invited for an appointment as **Clinical Tutor in Patient Centred Care in the Direct Entry Medicine Programme, Part-time (0.5FTE), Permanent post**, in the School of Medicine, University of Galway.

This post is open for application from medically qualified doctors with experience working as part of an interprofessional team in the Irish Healthcare system, who has excellent leadership, communication and organisations skills and a with a strong track record in medical student teaching and/or clinical placement supervision.

We are seeking to appoint a doctor to this post, to join the Discipline of Medical Education at an exciting time when both health care and health-professions education is evolving and changing. The successful candidate will work collaboratively with their counterpart Clinical Tutor(s) in Patient Centred Care, from Health & Social Care Professional or Nursing backgrounds.

The new appointment will ensure capacity for the development and delivery of new content relating to the revised Direct Entry Programme in the School of Medicine specifically focusing on the patient in the healthcare system and professional practice.

The post holder will sit in the Department of Medical Education (DME). The Discipline of Medical Education (DME) is one of 14 academic disciplines in the School of Medicine. It comprises staff with a specialist interest in Medical Education, who come from a diverse range of clinical and non-clinical backgrounds.

Under the leadership of Prof. Rosemary Geoghegan, the staff of the DME contribute to and support the Undergraduate Medical Programme in the areas of curriculum development, quality assurance, faculty training in teaching and assessment methodologies, clinical science and practice facilitation, student research, and leadership (module and programme). Medicine has been taught at University of Galway for 175 years and the School of Medicine has a long tradition of clinical education.

Additionally, the DME offers postgraduate programmes, including the PG Diploma and MSc in Health Professions' Clinically Education. Staff contribute to these programmes delivery, including supervision of masters students conducting research in Health Professions' Education. The DME is building its doctoral and post -doctoral research capacity. DME staff have a wide range of research interests in Health Professions' Education.

For informal enquiries, please contact

Professor Rosemary Geoghegan (rosemary.geoghegan@universityofgalway.ie)

Additional information on the Direct Entry Medicine Programme, at University of Galway is available at: <https://www.universityofgalway.ie/undergraduatemedicine/>

Salary: €82,195 to €100,597 pro rata p.a (applicable to new entrants effective from January, 2011)

This appointment will be made on the clinical tutor 2 scale in line with current Government pay policy and in accordance with the terms and conditions of the University's Remuneration policy. [QA321-Updated-PP-Remuneration.pdf \(universityofgalway.ie\)](#)

Closing date for receipt of applications is 17:00 (Irish Time) on Thursday 6th November 2025. It will not be possible to consider applications received after the closing date.

Garda vetting may apply.

Appointments will be conditional on work authorisation validation.
Further details are available at www.dbei.ie

For more information and Application Form please see website:

[Jobs - University of Galway](#) Applications should be submitted online.

Please see further information on how to apply here: [E-Recruit - University of Galway](#) and [Guidelines for On-line Applications \(universityofgalway.ie\)](#)

Please note that appointment to posts advertised will be dependent upon University approval, together with the terms of the Employment Control Framework for the higher education sector.

At the University of Galway, we celebrate diversity and believe that every candidate can bring unique perspectives, talents and approaches to our University community. We actively encourage applications from all backgrounds regardless of race, religion, ethnicity, gender, family status, civil status, membership of the Traveller community, sexual orientation, disability or age.

We value flexibility and recognise that a work-life balance is essential. We offer flexible working arrangements, including hybrid options, to accommodate the diverse needs of our staff. Our commitment to inclusivity extends beyond recruitment as we foster a friendly and supportive work environment, where all work styles are valued and respected. Join us in shaping a workplace that thrives on diversity, creativity and collaboration.

University of Galway is an equal opportunities employer.

JOB DESCRIPTION

Overview of Role

This post is central to the development and delivery of the new curriculum in the Direct Entry Medicine Programme, at University of Galway, with a focus on the patient journey through the healthcare system, which spans all five years of the course. In the first two years, the emphasis is on the early development of competencies in patient-centred care, with new and innovative content areas including:

- Understanding the healthcare system and transitions in care for patients and caregivers
- Applying patient-centred care frameworks in early, non-traditional clinical placements
- Promoting interprofessional education throughout the curriculum
- Fostering reflective practice to enhance learning following placements

Key Responsibilities

Teaching

- Deliver high-quality instruction and supervision to medical students as directed by the Programme Director on behalf of the Head of School, including lectures, tutorials, workshops, small-group sessions, and clinical skills teaching.
- Design, coordinate, and deliver curriculum content in patient-centred care and professional practice across all 5 years of the programme, with a focus on Years 1 and 2.
- Lead on the implementation and formative assessment of this curriculum and contribute to relevant summative assessments.
- Provide academic support and mentorship to students, including counselling and guidance on academic matters.
- Engage in the continuous development and refinement of the curriculum and the early patient contact programme based on feedback from students, patients, caregivers, and academic staff.
- Contribute to the delivery and development of other programmes as required.

Placement-Based Learning

- Coordinate and evaluate novel, early patient-contact placements.
- Monitor and assess the student and service-user experience to inform ongoing curriculum development.

Administration

- Perform administrative and quality assurance tasks related to teaching and placement coordination in collaboration with administrative staff, to ensure smooth delivery of the programme.
- Participate in relevant academic committees and meetings within the School and programme.

Scholarship and Research

- Engage in scholarship, innovation, and research, particularly in the area of patient and community involvement in medical education.
- Contribute to scholarship in patient-centred education and reflective practice.
- Support the integration of patient and community voices throughout the curriculum via partnerships with community organisations and patient groups.

Additional Duties

- Carry out any other duties as may be assigned from time to time by the Head of School or an authorised senior member of staff.
- Serve as a member of the College/Colleges as stipulated by University Statutes.
- Observe the working hours and other conditions as outlined under the Public Service Agreement for Academic Staff.

ELIGIBILITY REQUIREMENTS

Essential Criteria

- A professional qualification in medicine with current registration with the appropriate professional body (e.g. Irish Medical Council)
- Experience working in the Irish Healthcare system
- A minimum of three years' post-registration experience, including experience supervising students in clinical or placement settings.
- Demonstrated clinical, managerial, and administrative competence required to fulfil the responsibilities of the role.
- Ability to adapt and respond effectively to changes in placement environments or evolving regulatory requirements.
- Excellent communication and problem-solving skills.
- Proven ability to work autonomously, exercise sound judgment, and act proactively.

Desirable Criteria

- A postgraduate qualification relevant to the role, such as in higher education teaching and learning.
- Commitment to continuous improvement, with a self-motivated and ambitious approach to personal and professional development.
- Previous teaching experience within a healthcare-related academic programme.
- Ability to work effectively in a high-paced environment, both independently and as part of a team.
- Strong interpersonal and communication skills.
- A track record of relevant research and or publications

Appendix 1: Competency Framework for Lecturer (Contract Type A) Roles at
University of Galway

	Academic Excellence		Leadership Excellence		Organisational Excellence
CORE	Excellence in Teaching The Lecturer (Contract Type A) develops and delivers quality modules and courses which engage and inspire students at all levels towards deriving optimal benefit from their programmes of study. He/she is confident in using a range of teaching techniques, maintains currency with pedagogical developments and innovations in teaching in their discipline and is focused on continually developing her/his own teaching skills.	CORE	Personal Effectiveness The Lecturer (Contract Type A) is committed to her/his discipline and to making a high quality contribution through employing excellent planning, organising, communication and decision making skills to achieve their goals and in exercising flexibility in order to meet the multiple and changing requirements of the Lecturer (Contract Type A) role.	CAPACITY TO DEVELOP	Strategy & Vision The Lecturer (Contract Type A) should contribute to the strategic development of the discipline through an awareness of the wider educational environment, maintaining currency with developments in the discipline and how the School/Discipline can develop in the long term to optimise its contribution to the University's programmes. He/she must have the ability to develop proposals for the development of new modules and courses and engage in interdisciplinary initiatives towards the development of the School/Discipline.
CORE	Excellence in Associated Research The Lecturer (Contract Type A) keeps up to date with research developments in her/his field and incorporates same into teaching as appropriate. He/she engages in the scholarship of teaching.	CAPACITY TO DEVELOP	Leading Others The Lecturer (Contract Type A) must work well with others, providing leadership and direction to students and colleagues in relation to projects or areas of work that they are leading on. In such instances they effectively encourage, support and manage the contributions of others to deliver a project/programme of work to a high level.	DEVELOPING	Collegiate & Community Contribution The Lecturer (Contract Type A) values and engages in a collegiate approach to working with others, within their own discipline, School, College and University and also within the wider external community. He/She actively seeks to build effective networks and is willing to contribute their time and expertise to University projects.

Competencies for Lecturer (Contract Type A) Role in University of Galway

ACADEMIC EXCELLENCE

Competency 1: Excellence in Teaching

The Lecturer (Contract Type A) develops and delivers quality modules and courses which engage and inspire students at all levels towards deriving optimal benefit from their programmes of study. He/she is confident in using a range of teaching techniques, maintains currency with pedagogical developments and innovations in teaching in their discipline and is focused on continually developing her/his own teaching skills.

- Provides a high standard of teaching to students across a range of programmes in their discipline
- Provides mentoring and supervision to undergraduate and post graduate students / projects / programmes as required
- Leads on/contributes to the development and review of the curriculum and programmes delivered and encourages other staff to contribute
- Works to keep programmes 'fresh' and maintains currency of programmes informed by research
- Confident teaching student groups of various sizes and at different levels
- Competent and consistent in setting and organising/co-coordinating the marking of examinations
- Demonstrates, through their teaching, strong enthusiasm for their subject area and a high level of up to date knowledge and expertise in their area
- Competent in a range of teaching methods and strategies and is willing to continually evaluate and develop their teaching methods and skills, looking for better ways of teaching
- Open to using technological innovation as part of their teaching and keeps up-to-date with developments in this area
- Organises and structures their teaching logically to help maximise learning and ensure a good student experience
- Demonstrates a commitment to students and gives the time and effort to engage with, and be accessible to students
- Has the ability to give constructive and timely feedback and advice to students
- Balances a concern for students with a focus on being consistent and equitable in their treatment
- Benchmarks against those relevant programmes in other universities and aims to ensure that programmes are of a high standard
- Works with students to promote ideas of academic integrity, including the avoidance of plagiarism
- Embraces new modes of teaching and learning

Competency 2: Excellence in Associated Research

The Lecturer (Contract Type A) keeps up to date with research developments in her/his field and incorporates same into teaching as appropriate.

- Keeps up to date and maintains currency with associated research that furthers the School / Discipline
- Contributes to and supports the research priorities and activities at School / Discipline level
- Builds up collaborative links and networks with external organisations and keeps up to date with research and what is happening in the relevant international research area
- Attends relevant conferences, and works with industry and other relevant external bodies to keep knowledge relevant
- Provides supervision and guidance in relation to the research of students, motivating and encouraging them to help them overcome problems
- Engages/seek opportunities in the scholarship of teaching and learning

LEADERSHIP EXCELLENCE

Competency 3: Personal Effectiveness

The Lecturer (Contract Type A) is committed to her/his discipline and to making a high-quality contribution through employing excellent planning, organising, communication and decision-making skills to achieve their goals. He/She will exercise flexibility in order to meet the multiple and changing requirements of the Lecturer (Contract Type A) role.

- Demonstrates excellent planning, organisation and prioritisation skills, to effectively meet deadlines and to deliver to high standards across the areas of teaching, associated research and administration
- Has good time management skills to manage workload
- Has a reflective approach to their own work and can consistently review it in order to ensure it is of a high standard
- Flexible and adaptable in managing competing demands while protecting core values
- Shows a strong commitment to keeping up to date and maintaining professional competence
- Is resilient and maintains a positive outlook in challenging and pressurized circumstances
- Takes a balanced approach to the demands of the role and is flexible with what the role encompasses
- Understands the importance of programme innovation, related budget management and raising programme funds

Competency 4: Leading Others

The Lecturer (Contract Type A) must work well with others, providing leadership and direction to students and colleagues in relation to projects or areas of work that they are leading on. In such instances they effectively encourage, support and manage the contributions of others to deliver project/programme of work to a high level.

- Works constructively within a collective collegiate structure
- Consistently works with others to ensure high standards in all aspects of the role
- Is able to get the most out of people and to secure their support and cooperation in relation to work they are leading/managing
- Gives clear instructions in relation to the contribution expected from others
- Has the ability to manage and encourage others to deliver what is required
- Actively supports the career development of students and newer colleagues
- Organises and delegates work in a way which is consistent and fair and makes best use of resources
- Understands the importance of, and can use a range of strategies to, motivate students and colleagues
- Takes the initiative to put good ideas into practice

ORGANISATIONAL EXCELLENCE

Competency 5: Collegiate and Community Involvement

The Lecturer (Contract Type A) values and engages in a collegiate approach to working with others, within their own discipline, School, College and University and also within the wider external community. He/She actively seeks to build effective networks and is willing to contribute their time and expertise to University projects.

- Actively builds strong internal and external networks and collaborative links

- Takes time to build up positive working relationships with others and treats everyone fairly and with respect
- Assumes administrative/organisational roles and tasks to help ensure the smooth running of the School/Discipline
- Acts as chair on committees or acting as representative at school/college/university level and works to develop the skills needed to perform these roles effectively
- Makes an effort to understand and take account of different people's views and perspectives
- Encourages students to get involved in relevant external groups also, where appropriate
- Supports colleagues internally and cooperates with other universities in initiating collaborative programmes
- Possess the skills required to achieve a balance between internal requirements and external requirements
- Participate in relevant professional organisations/networks as appropriate

Competency 6: Strategy and Vision

The Lecturer (Contract Type A) should contribute to the strategic development of the discipline through an awareness of the wider educational environment, maintaining currency with developments in the discipline and how the School/Discipline can develop in the long term to optimise its contribution to the University's programmes. He/She must have the ability to develop proposals for the development of new modules and courses and engage in interdisciplinary initiatives towards the development of the School/Discipline.

- Has a clear overall vision for what the School/Discipline is trying to achieve and how their work fits in with the overall direction
- Understands how the discipline is developing and brings this to bear on their work
- Undertakes relevant benchmarking against other organisations and avails of opportunities to increase understanding of best practice
- Identifies opportunities for new modules and programmes by assessing what will be viable and of interest in the long term
- Creates, and takes advantage of, opportunities to market programmes to attract high quality students
- Able to negotiate whilst recognising the realities and the resource restrictions and is willing to change and adapt to meet future needs

Ollscoil na Gaillimhe

University of Galway

PROFILE OF THE UNIVERSITY

The University at a Glance:

The University Management Team

The University Management Team (UMT) is responsible for the executive day-to-day management of the University. UMT is led by the President who is the Head and Chief Officer of the University. Our current Interim University President, Professor Peter McHugh, was appointed in 2024. You can read more about him at: www.universityofgalway.ie/president

Acting under the President, the members of the University Management Team (UMT) each have specific leadership responsibilities for delivery of the University's objectives in education, research and management of the organisation. You can see the full UMT membership in the organisational chart above.

Find out more about the University's Governance and Management structures at: www.universityofgalway.ie/governance/the-kube-the-governance-hub

Colleges and Schools

The University has four Colleges:

- College of Arts, Social Sciences & Celtic Studies
- College of Business, Public Policy & Law
- College of Medicine, Nursing & Health Sciences
- College of Science & Engineering

Each of the Colleges is led by an Executive Dean. Within each College, decisions are taken by College Boards, chaired by the Executive Dean, and including the Heads of each School in the College.

- You can read the strategic plan at: [Strategy | Straitéis 2025-30 - University of Galway](#)

Our new strategic plan was developed through 18 months of consultation with our university community, with external partners in our city and region, and with the input of experts and supporters from around the world. Despite the diversity of inputs, the message was consistent:

- Be clear in our purpose and our core activities
- Communicate our distinctiveness
- Demonstrate our global impact
- Invest in our organisation to make it an effective university to work in and work with.

Our new strategy focuses on our core mission as a university to nurture talent and generate knowledge for the world. It articulates our ambition to make a distinctive impact through our research and innovation. It demonstrates our drive to enhance our education for the future, both in the excellence of our teaching and learning and the quality of our student experience. And it commits us to investing in our organisation and infrastructure to make it a more effective, sustainable and empowering place for our people.

We have stated these ambitions clearly and concisely. We now warmly welcome the engagement of our university community, and we invite the community to respond in inspiring and impactful ways. And we invite and encourage partners who share our vision to reach out and join us on our journey.

Building upon our strategic priorities, we have used this opportunity to engage staff, students and partners to define what makes us stand out, in terms of:

- Our Distinctive Place
- Our Research Pillars
- Our Galway Graduates

These have been informed by our shared experience of working and studying in University of Galway, and by external perspectives of our reputation. We will use this framework to guide us in our strategic planning and to communicate our distinctiveness with the world.

To give confidence to our community and partners that we listened to your feedback, we have also detailed where we plan to invest in our organisation in our Priority Initiatives and where we will evidence the impact of our actions in our Measures of Success.

In such a large and complex organisation, we have identified those Key Enablers that support excellence across our activities. Guiding us in our actions, and setting standards of behaviour for our university, our people and partners, we have articulated five Core Values informed by student and staff feedback: Excellence, Respect, Openness, Sustainability, and Belonging.

Student Body

The total student body, including part-time learners, comprises over 20,000 students, over 25% of whom are studying at postgraduate level.

Over 18% of our students were from outside the island of Ireland, coming to study in Galway from over 122 different countries worldwide. Through the Global Galway project, we are seeking to grow our international diversity further through a greater focus on international recruitment, mobility and partnerships.

Research

University of Galway is a globally focused research-intensive university. We recognise that research areas are neither standalone nor static. The problems of the world are not solved from just one perspective. With our knowledge of global challenges, national policy and regional needs our research areas enable an interdisciplinarity approach and impact.

Our research community achieved over €110m in EU research funding during the 2014-2020 programme period. We are now firmly focused on the 2021-2027 programme cycle, with ambitions to achieve in excess of €150m of EU research funding, including Horizon Europe. In 2023, the University had a record €82m annual spend in research, across a breadth of research areas. Engaging with our partners locally, nationally and worldwide, our current university strategy (Strategic Plan 2020-2025) invites ambition in research that underpins the following areas:

- Enhancing policy and society
- Enriching creativity and culture
- Improving health and wellbeing
- Realising potential through data and enabling technologies
- Sustaining our planet and people

These areas are aligned to the work of our Research Institutes, including:

- Data Science Institute
- Ryan Institute for advancing sustainability and innovation
- Institute for Lifecourse and Society
- Institute for Creativity
- Institute for Clinical Trials
- Institute for Health Discovery and Innovation (launched in October 2024).

For more information on our research institutes, centres and units, visit:

www.universityofgalway.ie/our-research/listings/research-centres-institutes-and-units.html

Staff

The University employs approximately 2,500 staff, including full-time and part-time, which includes approximately 1,000 academic staff.

Human Resource issues are managed within the Human Resources Office, under the direction of the Director of Human Resources. In 2023, a new Hybrid Working Policy was launched to facilitate more flexible working arrangements in a post-Covid environment.

Finances

The University is its own financial authority and has an annual income of over €350m, including contract research income of over €70m. The sources of income are Student Fees (approx. 40%), State Grants and Pension funding (approx. 30%), Research Income (20%) and Miscellaneous (10%).

The University and the Irish language

The University's commitment to the Irish language was first set out in the University College Galway Act 1929 and this was reiterated in the University College Galway (Amendment) Act 2006, which states that one of the principle aims of the university is "the provision of education ... through the medium of the Irish language".

The University's Strategy 2020-2025 goes even further and commits to developing and implementing an ambitious and future-focused strategy for the Irish language, in partnership with national stakeholders and Gaeltacht communities, based on our values of respect and sustainability. In 2021, the University published its first Irish Language Strategy and appointed its first Irish Language Officer.

Irish language programmes are delivered primarily through the Discipline of Irish and through Acadamh na hOllscolaíochta Gaeilge, our Irish language academy, which has three centres located in the Gaeltacht.

Our Region

Our regional footprint includes five Medical Academies, three Gaeltacht centres, off-campus research sites in Connemara and the Burren, and a satellite campus in Shannon College, Co. Clare.

Our Campus

The main University Campus, with an area of some 105 hectares in the heart of the city of

Galway, is attractively situated on the west bank of the River Corrib, and stretches from Nuns' Island in the south to the Sports Grounds in Dangan to the north. Other teaching and research facilities are located outside the city in An Cheathrú Rua, Carna and Mace Head in Connemara, in Shannon, Carron and Finnevara in Co. Clare, and in Gaoth Dobhair in Co. Donegal. The University's medical students and researchers benefit from on-the-ground Medical Academies located in hospitals throughout the region from Portiuncula University Hospital in Co. Galway to Letterkenny University Hospital in Co. Donegal.

Building for the Future: The University is in the process of finalising its masterplan for the years ahead, which will include the Nuns' Island creative and innovation district in Galway city centre. Recent years have seen some significant additions to campus, including:

- Clinical Simulation Facility: completed in 2022
- Dunlin Village on-campus student accommodation (674 beds): completed in 2022

The following construction projects have been commenced or approved in recent years:

- Learning Commons (new Library): construction commenced in 2024
- Water Sports Centre: planning permission approved in 2023
- New Law School: design for planning in progress
- New Pharmacy School: funded to planning stage
- New Medical School: funded to planning stage

Sustainability

Sustainability is one of the University's core values and we are recognised as a leader in the transition to a sustainable future. We are committed to the SDGs at an institutional level on multiple levels:

- As a signatory to the SDG Accord, we have committed 'to align all major efforts with the SDG targets and indicators, including through our education, research, leadership, operational and engagement activities' and to 'share our learning'.
- Our Climate Action and Sustainability Policy formalises our commitment 'to lead the transition to a sustainable future by embedding the SDGs into all our major efforts'.
- Our Sustainability Strategy 2021-2025, which is mapped to the SDGs, sets out our vision across the campus and beyond.

In the past three years we have been ranked First in Ireland and Top 50 worldwide in the Times Higher Education Impact Rankings for our progress on the SDGs. In 2023, we established a new Sustainability Office to lead the implementation of our Sustainability Strategy and to embed sustainability across our curriculum and operations.

Through the work of the University's Sustainability Office, the Community and University Sustainability Partnership, colleagues in Buildings and Estates and other university operations, and our Student Societies, we have advanced understanding and action on the urgent need for sustainability, using a Learn – Live – Lead model. Since 2006, we have achieved over 50% reduction in energy usage, exceeding our targets. In 2021, we established our carbon footprint, and we are actively working towards achieving carbon neutrality by 2050.
