

Ollscoil Mhá Nuad Maynooth University

School of Business Business Developer x2 (SAOIV) (0.8FTE, Specified Purpose Contracts)

The Role

Maynooth University is committed to a strategy in which the primary University goals of excellent research and scholarship and outstanding education are interlinked and equally valued.

The International Renewables and Energy Systems Integration (IRESI) Group, is a research centre housed in the School of Business. IRESI's research focuses on propelling sustainable energy systems into the future by helping individuals, organisations and institutions in the pursuit of a cleaner, greener, and more sustainable energy landscape. We are seeking two highly motivated and experienced Business Developers to join our team, with a focus on advancing the commercialization of renewable energy innovations. These roles are integral to the success of the Research Ireland project RENEW and require a strategic mindset, strong business acumen, and expertise in fostering partnerships within the renewable energy sector.

The successful candidates will take a lead role in exploring the commercialization potential of technical solutions developed under the project and validating business models for their components. Acting as product owners, they will oversee the piloting and market testing of the solution while liaising with industrial stakeholders to ensure alignment with market needs. These senior team members will be responsible for developing strategic partnerships, navigating complex industry and governmental landscapes, and leveraging their networks to position the product competitively in the renewable energy market. They will drive the identification of new commercialization opportunities, including licensing agreements and strategic collaborations, to maximize the project's impact and sustainability.

A critical part of the roles is translating technical ideas into commercially viable solutions and engaging with stakeholders at the highest levels. The Business Developers will ensure the solution aligns with emerging trends in renewable energy, formulate strategies for competitive advantage, and contribute to the exploitation and market adoption of project outcomes. These positions offer an exciting opportunity to contribute to a groundbreaking initiative at the intersection of research, innovation, and renewable energy commercialization.

Principal Duties

Administrative and other duties:

This will include:

- **Commercialization and Business Model Validation** - Assess the commercialization potential and validate business models for the solution's components.
- **Product Ownership and Piloting** - Lead the product development and piloting process to ensure alignment with market needs.
- **Stakeholder and Partnership Engagement** - Liaise with industrial stakeholders and develop strategic partnerships to enhance market reach and project impact.
- **Market Positioning and Strategy** - Position the product competitively in the market and align the solution with emerging trends.
- **Licensing and Monetization** - Explore commercialization opportunities, such as licensing agreements and strategic partnerships.
- **Market Testing and Feedback** - Test assumptions and gather market feedback to refine the solution and its business model.
- **Leadership and Advocacy** - Navigate industry and government systems to secure resources and advocate for the project at senior levels.
- **Commercial Exploitation** - Drive the effective commercialization and exploitation of the solution's components.

The ideal candidates will have:

Essential

- Bachelor's or Master's in Business Administration, Engineering, Computer science, or related technical field.
- Proven experience in commercialization, licensing, and developing business models.
- Strong ability to identify and capitalize on market opportunities
- Excellent communication and interpersonal skills for liaising with industrial stakeholders, government entities, and partners.
- Demonstrated success in fostering strategic partnerships.
- Experience as a product owner or in similar roles, managing product development and piloting processes.
- Skills in overseeing projects through their lifecycle, from conceptualization to implementation.
- Ability to advocate for projects at senior levels and secure stakeholder buy-in.
- Competence in translating technical concepts into commercially viable ideas and strategies.

Desirable

- Strong English verbal and written communication skills to liaise with stakeholders and document processes.
- Strong organizational and project management skills to oversee multiple facets of commercialization and development efforts
- Familiarity with licensing, partnerships, and other avenues for bringing products to market in sustainable energy markets.

The School of Business

The School of Business community includes approximately 65 faculty and 8 professional service staff coming from 20 countries, and a team of occasional lecturers. We are currently actively recruiting additional faculty and professional service staff to reinforce enacting our mission and values. Together we support a community of approximately 2,350 full-time equivalent students across 19 undergraduate, 12 taught postgraduate, and PhD degrees. Our research active faculty work in partnership with our full time university tutors and doctoral scholarship students to implement research informed, practice engaged education. Our university tutors are especially targeted at supporting our Living Laboratory learning experiences, where industry projects and skills are integrated into the learning journey.

As a community, we are guided by our mission, values and purpose (see Table 1). We have experienced considerable growth in the last six years: in terms of business students we have grown by over 150%. Our team of faculty and professional services staff has similarly grown. Our research has increased significantly in terms of quality of outlets, volume, and breadth of domain coverage.

Our disciplinary expertise is primarily in the areas of management (including strategy, organisational behaviour, human resource management, ethics, entrepreneurship, international business and innovation), marketing, accounting, finance, management information systems (MIS), operations and supply chain.

Students from multiple disciplines work in shared modules, developing shared life experiences and a common language of work. Our undergraduate education is broadly across three groups:

- Single honours degrees in Accounting, Business and Management; Business and Global Cultures; Finance; International Business; Marketing; and Entrepreneurship;
- Bachelor of Arts degree students, who can combine one of five business subjects (Finance, Accounting, Management; Marketing; International Business), with 22 other subjects across the university
- Double degrees with Law combining any of the following: Accounting or Business.
- Double Degrees with Modern Languages, combining a Business subject (choice of Accounting, Finance, Management; Marketing; International Business) and a language (Chinese; French; German; Spanish)

Table 1 Mission and Values of the School of Business

Mission:

Maynooth University School of Business is focused on developing critical thinkers and creating impactful knowledge for our community.

Values

1. Practice Engaged
2. Research Informed
3. Sustainable Careers and Organisations
4. Liberal: in terms of education choices, shared language and experiences
5. Egalitarian

Purpose and Contribution

We are proud to be an integrated School of Business within Maynooth University. We are here to contribute to the strategy of our university, and be a complimentary research-informed, practice engaged, Business School within Ireland, Europe and the AACSB family of member Business Schools.

HR EXCELLENCE IN RESEARCH

We have a growing range of taught postgraduate degrees in a range of areas within Accounting, Finance, Strategy, Management, Marketing, International Business, Information Systems; as well as a PhD programme. Our MA and MSc students are a blend of full and part time students; with varying levels of work experience from none to substantial.

Our faculty regularly publish in leading peer-reviewed journals, as well as engage with practice and the wider community in providing research-informed insights in their areas of expertise. The research of the School of Business was recently ranked in the top 20% worldwide in terms of research impact out of over 3200 Business Schools worldwide (GRP database 2020). 80% of our faculty hold a PhD degree.

The University

Maynooth University is a very distinctive university, a collegial institution focused on science and engineering, humanities, and social sciences, and equally committed to research, teaching and community engagement. Located in Ireland's only university town, its distinctive features and character owe much to its unique history and heritage. It provides a high-quality educational experience to over 15,000 students on a campus with 18th century roots and 21st century dynamism.

The strategic trajectory and accomplishments of Maynooth University, in the 25 years since its establishment as an autonomous public university, are exceptional, and a source of great pride to the university community, staff, students and alumni. Maynooth University in 2024 ranked in the top 90 global Times Higher Education (THE) Young University rankings, placing 86th in the world. Maynooth University's growing global reputation is based on the originality, quality, importance and impact of its research and scholarship, commitment to teaching and learning, the quality of academic programmes, and its leadership in widening participation in higher education. The sources of success are the dedication of its staff and the energy and engagement of its students.

Maynooth University is a place of lively contrasts – a modern institution, dynamic, rapidly-growing, research-led and engaged, yet grounded in historic academic strengths and scholarly traditions. With over 15,000 students Maynooth offers a range of programmes at undergraduate, postgraduate and doctoral level in the humanities, science and engineering and social sciences, including business, law and education. The University also offers a range of international programmes and partnerships.

Maynooth's unique collegial culture fosters an interdisciplinary approach to research, which its world-class academics bring to bear in tackling some of the most fundamental challenges facing society today. The University's research institutes and centres consolidate and deliver this impact as vibrant communities of learning, discovery and creation. Research at Maynooth also is very much central to its teaching and the University prides itself on placing equal value on its research and teaching missions.

Maynooth University's Values

Our values define who we are, what we believe in and how we act as a community. They underpin our future success and guide our expectations of ourselves and each other. Our values apply to everyone in the University community:

- Integrity
- Collegiality
- Responsibility

- Freedom of expression
- Ambition

Maynooth University Strategic Plan 2023 – 2028

The University's Strategic Plan 2023 - 2028 builds on our rich academic history and strong foundations to set out an ambitious and forward-looking path for the future of our University. This roadmap underscores our commitment to adapt to a changing world while staying true to our values.

Our vision is to be a university of excellence, opportunity and impact, having a significant stake in all three.
